INDEX BY CATEGORY

— General —

Listen and Learn, Establishing Competitive Advantage in the Contemporary Grease Market, Todd, P., March, 1999.

Corrosion, Rust and Beyond, Hunter, M., Baker, R., March, 1999.

Studies on the Lubricating Performance of Synthetic Oils for Cold Rolling of Steel, Das, M.L., Chattopadhyay, S., Chandrasekharan, C.V., February, 1999.

A Marketing Analysis of the U.S. Lubricating Grease Industry, Cornitius, T., February, 1999.

Options Available for Transportation of Bulk Grease, Berry, T., November, 1998.

Bulking Up—Why the Petroleum Industry is Switching from 55-gallon Drums to Intermediate Bulk Containers for Handling Grease, Moskwa, E., November, 1998.

A Novel Tubing/Casing Thread Compound Offering both Corrosion Protection and Performance with Environmental Acceptability, Adamson, N., Pinoche, J.M., Noel, T., October, 1998.

Enhancing Further Performance Properties of Titanium Complex Grease, Kumar, A., Nagar, S.C., Naithani, K.P., Rai, M.M., Bhatnagar, A.K., September, 1998.

An Economic Evaluation of 12-Hydroxystearic Acid and Hydrogenated Castor Oil as Raw Materials for Lithium Soap Lubricating Grease, Kinnear, S., Kranz, K., August, 1998.

A Study of Composition and Technology of Complex Lithium Grease, Ruibin, L., Ping, W., Fusheng, L., August, 1998.

Consistency Consists in σy, Hamnelid, L., July, 1998.

Tribological Comparison of Base Greases and Their Fully Blended Counterparts, Kernizan, C., Pierman, D., May, 1998.

Practical Experience with Highly Biodegradable Lubricants, Especially Hydraulic Oils and Lubricating Greases, Stempfel, E.M., April, 1998.

Shore and Off-Shore Drilling Greases in Brazil, Hissa, R., Monteiro, J.C., April, 1998.

Lubrication of Japanese Bullet Train Traction Motor, Osawa, H., Okaniwa, T., January, 1999.

Grease Based Open Gear Lubricants: Multi-Service Products Development and Evaluation, Samman, N., Lau, S., December, 1998.

Gear Additive Technology for Extended Drain Commercial Driveline Requirements, Bala, V., MacPherson, I., Walters, K., June, 1998.

Internet Resources for the Lubricant Industry, Cowan, S., November, 1998.

— Product Development —

Continuous Lithium Complex Grease Formation Using Methyl Esters of 12-Hydroxystearic Acid and Azelaic Acid, Beret, S., Boersig, T., Loh, W., Wong, P., February, 1999.

Grease Based Open Gear Lubricants: Multi-Service Products Development and Evaluation, Samman, N., Lau, S., December, 1998.

EP Property and Lubricating Mechanism of Phosphate Glass in Lubricating Grease, Ogawa, T., Kimura, H., Kimura, A., Hayama, M., September, 1998.

The Influence of Thickener Type on the Apparent Viscosity of Lubricating Grease, Bessette, P., January, 1999.

Enhancing Further Performance Properties of Titanium Complex Grease, Kumar, A., Nagar, S.C., Naithani, K.P., Rai, M.M., Bhatnagar, A.K., September, 1998.

— Additives —

Gear Additive Technology for Extended Drain Commercial Driveline Requirements, Bala, V., MacPherson, I., Walters, K., June, 1998.

Corrosion, Rust and Beyond, Hunter, M., Baker, R., March, 1999.

Low Temperature Rheology of Greases: Functionalized Polymer Systems, George, H., Todd, P., Zinger, I., December, 1998.

— Testing —

Yield Behavior of ASTM Mobility Test Greases, Whittingstall, P., March, 1999.

Low Temperature Rheology of Greases: Functionalized Polymer Systems, George, H., Todd, P., Zinger, I., December, 1998.

DSC - A Valuable Tool for the Grease Laboratory, Pohlen, M.J., July, 1998.

Yield Stress Studies on Greases, Whittingstall, P., Shah, R., June, 1998.

Microwave Assisted Digestion of Zinc Phosphorus and Molybdenum in Analyses of Lubricating Greases, Kieke, M., May, 1998.

EP Property and Lubricating Mechanism of Phosphate Glass in Lubricating Grease, Ogawa, T., Kimura, H., Kimura, A., Hayama, M., September, 1998.

Consistency Consists in σy, Hamnelid, L., July, 1998.

Tribological Comparison of Base Greases and Their Fully Blended Counterparts, Kernizan, C., Pierman, D., May, 1998.

The Influence of Thickener Type on the Apparent Viscosity of Lubricating Grease, Bessette, P., January, 1999.

— Environmental Issues —

Continuous Lithium Complex Grease Formation Using Methyl Esters of 12-Hydroxystearic Acid and Azelaic Acid, Beret, S., Boersig, T., Loh, W., Wong, P., February, 1999.

Practical Experience with Highly Biodegradable Lubricants, Especially Hydraulic Oils and Lubricating Greases, Stempfel, E.M., April, 1998.
